PROFILE

Dynamic Data Analyst with 4 years of experience in transforming complex data into strategic insights that drive business outcomes. Proficient in SQL and Python, with a strong track record of developing ETL processes and data visualizations that enhance decision-making and operational efficiency. Expertise in assessing data quality and implementing cloud infrastructure solutions to support scalable data initiatives. A collaborative professional committed to leveraging analytical skills and technical knowledge to support data-driven strategies.

EMPLOYMENT HISTORY

Data Analyst at ADENTIS, Porto, Portugal

April 2024 — Present

- Transform raw data into actionable insights, leveraging SQL and Python expertise.
- Develop ETL processes and data models to enhance data-driven decision-making.
- Conduct data quality assessments to ensure accuracy and reliability.
- Develop cloud infrastructure using AWS CloudFormation to automate service deployment
- Deliver comprehensive reports and dashboards to stakeholders for informed decision-making.

Data Analyst at MSX International, São Paulo, Brasil

November 2023 — April 2024

- Analyzed complex datasets to identify trends and patterns, enhancing business strategies.
- Developed data visualization dashboards using Tableau to present insights to stakeholders.
- Collaborated with cross-functional teams to streamline data collection processes.
- Implemented ETL processes to ensure data accuracy and integrity in reporting.

Data Engineer at MODALGR, Santos, São Paulo, Brasil

October 2021 — November 2023

- Developed and maintained scalable data pipelines to optimize data flow and accessibility.
- Implemented ETL processes ensuring data accuracy and integrity across systems.
- Collaborated with cross-functional teams to translate business requirements into technical specifications.
- Analyzed large datasets to identify trends, patterns, and actionable insights.
- Leveraged SQL and Python for data transformation and reporting, contributing to strategic decision-making.

Infraestructure IT Analyst at Santos Brasil

April 2020 — October 2021

Responsible for automating the entry and exit of vehicles at the busiest port terminal on the American continent

EDUCATION

- Bachelor of Information Systems, Universidade Paulista
